### Codedex Hackathon 2024

Worked collaboratively with 2 randomly chosen teammates to create a working, animated single page website in 24 hours utilizing React, CSS, and GitHub

## EDUCATION

### University of Minnesota Minneapolis

Bachelor of Science  
Mechanical Engineering

## PROFESSIONAL EXPERIENCE

### Implementation Specialist

Submittable | Feb 2022 - June 2024

- Designed a multi-stage custom automation workflow for customer IFF that utilized the Submittable API to reduce manual staff hours by 50% resulting in improved grant management
- Built and deployed the multi-lingual intake form for the State of Minnesota's Tax Rebate Program in under 1 week while emphasizing accessibility, resulting in smooth data collection, no interference with custom automations, and the distribution of \$1B to Minnesota citizens
- Identified, tested, and reported bugs in live production leading to more accurate reporting of issues, reduced customer frustration, and increased customer retention

### Continuous Improvement Specialist

Blue Cross Blue Shield of Minnesota | Aug 2019 - Feb 2020

Pentair | April 2015 - March 2017

Collins Aerospace | July 2013 - July 2015

- Planned, coordinated, and executed a 12-month Lean Transformation project at Pentair for the 2-shift, 100 employee Cooling Assembly Area by leading cross-functional teams through several week-long kaizen process improvement events resulting in \$650k annual cost savings, 25% faster time to manufacture, and greatly improved employee morale
- Achieved Lean Practitioner Certification 2014

### Small Business Owner

Danielle Lindblom Coaching | Oct 2018 - Feb 2022

High Spirits Dog Training | July 2014 - Aug 2019

- Built and updated websites for both businesses using Wix.com
- Managed all Business to Customer sales
- Specialized in Behavior Science and Change Management
