Frontend Developer – React.js, TypeScript, Accessibility

Danielle.Lindblom@gmail.com | (218) 205-4992 | Missoula, Montana

PRACTICAL EXPERIENCE

Frontend Engineer (remote)

GRIDIRON SURVIVOR – Apprenticeship Program

Oct 2024 – Present ([Website](#) | [Pull Requests](#))

- Built and maintained a fantasy football SaaS product using **Next.js**, **TypeScript**, **React.js**, and **Tailwind CSS**, including unit testing with **Jest/React Testing Library**.
- Removed distracting, obsolete information from the site, gave users the ability to clear popup notifications, and resolved a screen flickering issue by creating a new login authentication workflow in React and utilizing a loading spinner.
- Discovered and reported a key accessibility issue – website menu controls had no text description or aria label meaning screen reader users would be unable to navigate the site.

Frontend Developer & Project Manager

SERVICE DOGS AROUND TOWN – Solo Project

Aug 2024 – Present ([Website](#) | [Code](#) | [Project Plan](#) | [Task Board](#))

- Built a web application with **React.js**, **JavaScript**, and **Tailwind CSS** that allows service dog handlers to save and access shared and private information about local businesses.
- Created the ability to lookup businesses and see existing entries on a map UI using the **Google Maps API**. Utilized **Firebase** integration for user authentication and data storage.

Frontend Developer

CHINGU VOYAGE 51 – Independent Team Project

Sept 2024 ([Website](#) | [Code](#))

- Created a web application using **React.js**, **JavaScript**, and **Tailwind CSS** that allows users to manage the tracking, splitting, and repayment of expenses for large group trips.
- Set up the overall page structure and built the controls for switching between user views.

React Developer & Team Leader

CODEDEX HACKATHON – Independent Team Project

July 2024 ([Website](#) | [Code](#))

- Created a single page website yard sale invitation in 24 hours using **React.js**, **JavaScript**, **CSS**, and **GitHub**. Built the controls and UI that allowed the user to turn animations on/off.

EDUCATION

Bachelor of Science Mechanical Engineering | UNIVERSITY OF MINNESOTA

ADDITIONAL PROFESSIONAL EXPERIENCE

Implementation Specialist (remote)

SUBMITTABLE – Startup SaaS Company

Feb 2022 – June 2024

- Built and deployed the complex, multi-lingual intake form for the State of Minnesota's Tax Rebate Program using Submittable software in under 2 weeks, emphasizing **accessibility** and resulting in the successful distribution of \$1B to Minnesota citizens.
- Successfully onboarded 100+ new Submittable customers utilizing a robust customer intake process, empathetic listening, **project management**, and detailed **technical training**.
- Designed a multi-stage custom software automation workflow for customer IFF that reduced their staff's manual work hours by 50% .
- Actively contributed to the company's Accessibility Team by bringing forward customer concerns, troubleshooting, and creating best practices around accessibility.

Small Business Owner

HIGH SPIRITS DOG TRAINING | DANIELLE LINDBLOM COACHING

July 2014 – Aug 2019

Oct 2018 – Feb 2022

- As a professional dog trainer / behaviorist - Provided private **behavior consulting** services, public group classes, and in-person workshops, serving 100+ clients per year, and resulting in a 90% positive review rate and multiple referrals.
- As a professional life coach - Created transformative experiences in personal growth for customers via 1 on 1 virtual sessions and workshops, resulting in strong testimonials.
- Built and maintained professional business **websites** over 8 years using Wix.com – including SEO, copywriting, and responsive design – resulting in dozens of qualified leads per month.

Lean Manufacturing Leader

PENTAIR – Global Manufacturing Company

April 2015 – March 2017

- Planned, coordinated, and executed a 12-month Lean Transformation project for the 2-shift, 100 employee Cooling Assembly area by leading cross-functional teams through several week-long kaizen **process improvement** events resulting in \$650k annual cost savings and 25% faster time to manufacture.
- **Manager** for a team of Lean Manufacturing Technicians, including interviewing and hiring. Provided work assignments, coaching and development, and career opportunities.
