Frontend Developer – React.js, TypeScript, Accessibility

Danielle.Lindblom@gmail.com | (218) 205-4992 | Missoula, Montana

PRACTICAL EXPERIENCE

Frontend Engineer (remote)

GRIDIRON SURVIVOR – Apprenticeship Program

Oct 2024 – Present ([Website](#) | [Pull Requests](#))

- Built and maintained a football survivor pool web application using **Next.js**, **TypeScript**, **React.js**, and **Tailwind CSS**, including unit testing with **Jest/React Testing Library**.
- Improved the user experience by removing obsolete information from the site, allowing users to clear notifications, and resolving a bug related to the login experience.
- Discovered and reported a key accessibility issue related to the menu controls of the site.
- Participated in Agile sprint planning, ticket estimation with sprint points, and daily Scrum.

Frontend Developer & Project Manager

SERVICE DOGS AROUND TOWN – Solo Project

Aug 2024 – Present ([Website](#) | [Code](#) | [Project Plan](#) | [Task Board](#))

- Built a web application with **React.js**, **JavaScript**, and **Tailwind CSS** that allows service dog handlers to save and access shared and private information about local businesses as it pertains to the comfort and safety of their service dogs.
- **Google Maps API** integration and **Firebase** integration for user authentication and database.

Frontend Developer

CHINGU VOYAGE 51 – Independent Team Project

Sept 2024 ([Website](#) | [Code](#))

- Collaborated with a team of developers and a Scrum Master to create an expense splitter web application using **React.js**, **JavaScript**, **Tailwind CSS**, and Agile Methodologies.
- Fixed bugs, conducted code reviews, and participated in Sprint Planning and Retrospectives.

React Developer & Team Leader

CODEDEX HACKATHON – Independent Team Project

July 2024 ([Website](#) | [Code](#))

- Led a team of 3 developers to create a single page website yard sale invitation in 24 hours using **React.js**, **JavaScript**, **CSS**, and **GitHub**. Provided team training on React.js and Git that resulted in stronger contributions to the project.

EDUCATION

Bachelor of Science Mechanical Engineering | UNIVERSITY OF MINNESOTA

ADDITIONAL PROFESSIONAL EXPERIENCE

Implementation Specialist (remote)

SUBMITTABLE – Startup SaaS Company

Feb 2022 – June 2024

- Built and deployed the complex, multi-lingual intake form for the State of Minnesota's Tax Rebate Program using Submittable software in under 2 weeks, emphasizing accessibility and resulting in the successful distribution of \$1B to Minnesota citizens.
- Successfully onboarded 100+ new Submittable customers utilizing a robust customer intake process, empathetic listening, project management, and detailed technical training.
- Designed a multi-stage custom software automation workflow for customer IFF that reduced their staff's manual work hours by 50% .
- Actively contributed to the company's Accessibility Team by bringing forward customer concerns, troubleshooting, and creating best practices around accessibility.

Small Business Owner

HIGH SPIRITS DOG TRAINING | DANIELLE LINDBLOM COACHING

July 2014 – Aug 2019

Oct 2018 – Feb 2022

- As a professional dog trainer / behaviorist - Provided private behavior consulting services, public group classes, and in-person workshops, serving 100+ clients per year, and resulting in a 90% positive review rate and multiple referrals.
- As a professional life coach - Created transformative experiences in personal growth for customers via 1 on 1 virtual sessions and workshops, resulting in strong testimonials.
- Built and maintained professional business websites over 8 years using Wix.com – including SEO, copywriting, and responsive design – resulting in dozens of qualified leads per month.

Lean Manufacturing Leader

PENTAIR – Global Manufacturing Company

April 2015 – March 2017

- Planned, coordinated, and executed a 12-month Lean Transformation project for the 2-shift, 100 employee Cooling Assembly area by leading cross-functional teams through several week-long kaizen process improvement events resulting in \$650k annual cost savings and 25% faster time to manufacture.
- Directly managed a team of Lean Manufacturing Technicians, including interviewing and hiring. Provided work assignments, coaching and development, and career opportunities.
